

SPORTS PREMIUM PLANNED SPENDING 2026/27 (Autumn Term Only)

Total sports premium funding estimated allocation: £6,500		Total planned spend: £6,600
The Sports Premium is additional funding for publicly funded schools in England to improve the provision of Sports and PE within school. Funding ceases Spring 2027; this represents spend plan for Autumn Term only. Aims of Sports Premium Spending: ➤ Improving the quality of teaching and learning in P.E and Sports. ➤ Increasing participation in sporting activities outside of the core curriculum, during lunchtimes and after school. ➤ Improving pupils' lifestyles and physical wellbeing.		
Sports Premium Expenditure	Objective/Action taken	Amount budgeted
Golf project: maintaining and developing a mini golf course. Increasing golf participation across school and linking to other areas of the curriculum.	In 2013/14 academic year, sports premium funding was used to develop an on-site golf course, designed by the children. During the 2026/27 academic year, sports premium funding will be used to maintain and develop the golf course, ensuring it can be used by pupils throughout the year. The golf course is also used by the extended services after school club, which approximately 60 children from across the school are due to attend during the 2026/27 academic year. We will also use golf as an enrichment activity for KS2 pupils. This year we aim to maintain the number of children taking part in golf as an extra-curricular activity and also maintain the number of times each year group uses the golf course throughout the year. We also aim to continue improving the basic skills of children in all year groups. We will continue to make cross-curricular links between golf and, for example, maths, whilst increasing the level of enthusiasm for the sport that we saw during previous academic years, including 25/26. Our aim is for numbers of children using the golf course overall to be at least maintained. This will be monitored by the Sports Leader. New 'Gold Leaders' will also be appointed in Year 6, giving children the opportunity to maintain the golf course and demonstrate to younger children.	£350
Competition and	Brandhall Primary School aims to allow as many children as possible to take part in competitions outside	£250

SPORTS PREMIUM PLANNED SPENDING 2026/27 (Autumn Term Only)

Achievement: Sports teams compete in competitions throughout the school year. Mostly offsite events but some events also organised on site. Prizes are also purchased to promote sporting achievement and encourage participation.	school, developing their confidence within the chosen sport, familiarising them with competing against other schools and increasing their overall enjoyment and enthusiasm for sport. Within the school site we are fortunate to have football pitches, a golf course, a basketball course and two school halls – both used for delivering PE. As such, we also invite other schools to take part in competitions on our site, involving as many of our children as possible. In addition to the cost of attending external competitions, school spends a small amount on prizes, trophies, medals and other rewards to promote and celebrate sporting achievement, whilst also encouraging participation. Our aim during 2026/27 is to increase the number of children taking part in competitions across school. Our target is to at least maintain the overall number of competitions that we participate in across school compared to 2025/26. This continues to be an area of focus for us during 2026/27 but we believe we can at least maintain the overall number of competitions and do so at a low cost. We aim to continue to enter competitions in a wide range of sports and continue to enter 'B teams', targeting children who have not previously taken part in competitions. We are very satisfied with the level of intra competition already happening within school and wish to continue focussing on competition against other schools during 2026/27.	
PE and Sports Resources: General resources to aid the delivery of the PE curriculum and sport within school, including resources for after school sports clubs	Each year since the introduction of Sports Premium, we have allocated money towards resources to ensure that teachers are able to deliver the PE curriculum and we are also able to offer after school sports clubs. The Sports Premium is used to ensure children are motivated to participate in PE and other sport sessions because lessons are well-resourced and a variety of activities can be provided throughout the year.	£3,000

SPORTS PREMIUM PLANNED SPENDING 2026/27 (Autumn Term Only)

	The money is partially used to ensure there are sufficient high-quality resources for sports and activities already undertaken but is also used to introduce new activities and maintain children's interest and motivation. This year we aim to have better resources than in any previous academic year, which will in turn mean a higher standard of PE lesson, more enthusiasm for PE lessons and extra-curricular clubs and overall greater participation in sport. We also aim to continue organising our resources more efficiently to maximise the benefit across all areas – PE lessons, lunchtimes, after school clubs. In addition to our standard PE resources, we are investing in more MOKI bands, which have been used effectively in school during 2025/26. MOKI bands track physical activity and are used to produce data, which children can view and take ownership of. MOKI bands are already used in Year 2 and Year 4 to monitor the physical activity of our children. The aim of purchasing additional MOKI bands for additional year groups is to encourage physical activity and healthy lifestyles, expanding on the positive impact we saw in 2025/26. We will also be able to use the MOKI bands to monitor and evidence the impact of other elements of our sports premium plan. We will also continue to use a small amount of sports premium funding for staff and pupil uniform. In terms of staff, this will help to increase enthusiasm for sport and support the development of Brandhall's sporting identity, particularly when competing against other schools but also for PE sessions and sports days. For children, the purchase of PE uniform will continue to increase participation and ensure that all pupils are ready for PE and experience a feeling of 'belonging' when taking part. This is part of our poverty proofing strategy. We have allocated a large proportion of the funding for Autumn Term to resources, as we feel this will have the biggest long-term positive impact on sport within school.	
After School Clubs and Extra Curricular Sports: Clubs take	We want to increase the level of sports participation in after school clubs that we achieved during 2025/26 academic year. We also want to continue with enrichment clubs during the school day; these	£1,000

SPORTS PREMIUM PLANNED SPENDING 2026/27 (Autumn Term Only)

place throughout the school year in a variety of sports, helping to engage children in sport and introduce them to new ways of staying fit and healthy.	will include sporting opportunities for our children and was a very successful initiative during 2024/25 and 2025/26. We wish to run multiple clubs throughout the next academic year and have the proportion of children participating in extra-curricular sports activity at a higher level than 2025/26, where we faced significant difficulty in achieving the same levels as in previous years. We also wish to involve children who have not attended clubs previously, as well as introducing new clubs that have not previously been run. We have plans in place to enable more clubs to take place but keep costs to school reasonably low. In addition to after school clubs, we aim to offer sporting enrichment clubs for children during the school day. Our main aim for 2025/26 is to introduce our KS2 children to new sports and for a higher number of KS2 children to access these clubs throughout the school year.	
OPAL: Outdoor Play and Learning Scheme is being implemented to have a positive impact in several areas, one of which is the play and sporting opportunities provided for our children.	In 2026/27, Brandhall Primary School is continuing with the OPAL (Outdoor Play and Learning) scheme to enhance the quality of play, which includes physical activity and sporting opportunities for all of our children. This scheme was introduced during 2025/26 but 2026/27 will be the first full year of OPAL for Brandhall Primary. It will provide diverse, inclusive and stimulating play opportunities, whilst encouraging creativity, exploration and risk-taking in a safe environment. In addition to this, the scheme will increase physical activity levels through engaging outdoor environments and it will also support motor skill development, overall fitness and a positive outlook on health and fitness in general. During 2025/26, we selected and trained a designated play coordinator and trained all relevant staff in play work principles and supervision. We will continue to invest in OPAL training for these staff in 2026/27, including work with an OPAL mentor. We will invest in resources and storage, as well as ensuring play spaces are transformed to give children the best possible play environment. We will involve children in the transformation of play at Brandhall Primary School.	£2,000
